

# ***APS at the APS (the other one, that is)!***

*Susan Strasser*

*March 31, 2004  
Monthly Operations Meeting*

## ***Argonne National Laboratory***

A U.S. Department of Energy  
Office of Science Laboratory  
Operated by The University of Chicago

# ***Details of the Venture***

---

- What:** An exhibit promoting research opportunities at the APS
- Who:** User Office staff, beamline scientists, and users
- When:** Last week – Monday through Wednesday
- Where:** The exhibit hall at the “other” APS meeting in Montreal
- Why:** To promote the availability of General User beam time
- How:** Personal contacts, hand-out materials, serious (and not-so-serious) discussions with meeting participants for information exchange – at the booth and elsewhere

# ***Specifically, Who?***

**Many, Many Thanks to all!  
(And also to anyone I've inadvertently overlooked!)**

# The “Booth” and People

Setting up

And they came...

Ready to go (or almost)...

# *What's Next?*

---

- Follow-up
- Outreach to new communities (e.g., chemistry, geosciences, environmental research)
- Formation of an outreach focus group
